Reference this Ministry's Memorandum No.D/54/11713/1, dated the 22nd May, 1954.

2. It has been considered whether correspondence from the State Governments to non-officials in countries abroad should be transmitted by this Ministry's Diplomatic Bags or by normal postal channels. The decision is that ordinary correspondence not involving political or controversial issues might be transmitted by post to all destinations except where special political considerations or unusual situations exist which make it desirable to transmit even letters of this kind by Diplomatic Bag. Thus, for instance, if a State Government wishes to offer a scholarship to an African student residing in Nairobi, it will be desirable in the existing circumstances to despatch the letter by Diplomatic Bag rather than by post. But if the scholarship is for a student, say, in Burma or Indonesia, it will not be necessary to do so.
